

# ENERGY uni

**Detergent for professional dishwashers in medium-hard water conditions**

## ■ Eco-efficient performance with eco-effective product design

User and environmental safety at the highest cleaning performance

- Certified with the European Ecolabel (DE/038/049)
- Registered in the positive list of "DIE UMWELTBERATUNG"
- Complete abandonment of toxic and harmful materials
- Outperforms other products at lower use concentration

### Sustainable development and production

#### EMAS:

- Continuous improvement of environmental performance
- Annual sustainability report
- Energy and water management
- Social Fairness

#### DIN ISO 14001:

- Continuous improvement in reducing waste and CO<sub>2</sub> emissions, and saving of energy, water and material consumption

#### ISO 50001:

- Continuous improvement of energy management: performance, efficiency, security, use and consumption

#### A.I.S.E.-Charter:

- Safe and sustainable manufacturing of cleaning products

#### DIN ISO 9001:

- Continuous improvement of management processes and customer satisfaction
- Established quality management system in product development and production

### Complete biodegradability

- ENERGY uni with all its ingredients is totally biodegradable and has proven this important property in an accredited mineralization test according to OECD 302 B standard\*

\*for more information please visit [www.wmprof.com](http://www.wmprof.com)

### Intensive use of renewable resources – continuous increase of the reutilisation score

- Production under extensive use of renewable raw materials and energy using to 100% hydroelectric, solar and geothermic power
- Production widely independent of crude oil: 21% of organic carbon processed in ENERGY uni originates from renewable plant resources which enables a production that is widely independent of crude oil
- Active water stewardship maintaining an own fresh and waste water treatment

### Ingredient declaration

For the ingredients list, please see the Safety Data Sheet

### Traditional German quality - driving your durable business development

- More than 30 years pioneer in sustainable product development
- Smart hygiene solutions ensuring profitable growth
- Trusted brand

### Professional user training and on-site support for Sustainable Hygiene Solutions

- Comprehensive knowledge transfer through qualified cleaning consultants
- Customized hygiene plans and cleaning recommendations optimizing your business and cleaning procedures
- Increased service value and strengthened company reputation

makes the difference

# ENERGY uni

**Detergent for professional dishwashers in medium-hard water conditions**

■ Ecolabel certified ■ For medium-hard water ■ Concentrated

## Product profile

- ENERGY uni is a powerful detergent for dishwashers with excellent cleaning performance, specially in soft and medium-hard water conditions, while respecting highest sustainability standards due to an innovative complexing system without NTA, EDTA and Phosphates.
- Due to its concentrated cleaning agents ENERGY uni is suitable for dishes, glasses, cutlery and cookware.
- In order to preserve dishes and machines, ENERGY uni enables a gentle washing process and extends machines life span due to its special lime deposits preventing formula.
- Excellent cleaning results when used in combination with BRILLANT uni.
- Majorly composed of renewable resources, ENERGY uni takes on the responsibility for future generations.

## Area of application

- For all types of dishwashing machines e.g., conveyor and single-tank dishwashers.
- Suitable for alkali-resistant dishes and cutlery.
- Do not use for dishes and cutlery made of aluminum and silver.
- Dosing according to water conditions: soft water conditions: 1 - 2 g/L | medium hard water conditions: 2 - 3 g/L

## Product safety, storage and environmental instructions

**Safety:** For professional use only. Test material compatibility before use. For further information, see Safety Data Sheet.

**Storage:** Store at room temperature in the original container. Keep from freezing.

**Environmental:** Only give completely emptied packaging to special waste disposer. For maximum effectiveness always use the correct dosage. This will minimize water consumption and reduce water pollution.

## Application and Dosing

Dose in relation to application and degree of soil. Follow below instructions.

1-4 g/L

automatic dosing systems highly recommended.

**Application area:** Suitable for all types of dishwashing machines.

for heavy soiling.

Put the dishes in an upright position and let them drip dry.
