

Liquid acidic rinse aid

Description

Suma Crystal A8 is a concentrated low foam machine rinse additive with scale control properties.

Key properties

Suma Crystal A8 is a concentrated acid rinse additive. It has been specially formulated for use in a wide range of ware washing machines. The product contains a blend of low foam surfactants for rapid and streak-free drying and for foam control in the dishwasher. It also contains scale control agents to keep the machine free from scale in medium hard and hard water conditions. A special ingredient makes the product suitable for use on soft metals.

Benefits

- Highly concentrated formulation gives economy in use
- Ensures quick drying
- Gives streak and spot-free results
- Suitable for hard water due to scale control agents
- Compatible with soft metals

Use instructions

Suma Crystal A8 is normally injected automatically into the final rinse water of ware washing machines at a minimum recommended dosing of 0,1ml/l* using Diversey automatic dispensing equipment or integral dosing pumps, if fitted. It may also be applied manually into the rinse aid reservoir of smaller ware washing machines. Actual dosage will depend on site conditions (water hardness, degree of soiling, procedures).

**This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*

A8

Technical data

Appearance: clear green liquid

pH value (neat): 2,0

Relative density: 1,04

The above data is typical of normal production and should not be taken as a specification.
