

TASKI® Sani Calc QS

W3a

Washroom descaler in QuattroSelect®

Description

Powerful limescale remover for daily and periodic cleaning and descaling acid resistant washroom surfaces. Also available in fully recyclable mono-material pouch.

Key properties

- Phosphoric acid based
- Contains a corrosion inhibitor
- Fast acting acidic formula
- Unique, patented Odour Neutralizing Technology (O.N.T.)

Benefits

- Strong descaling properties quickly remove even stubborn calcium/lime deposits
- Gentle to the surfaces to be descaled
- Perfectly fit for efficient full surface descaling of floors, walls and other washroom surfaces
- Leaves a pleasant, fresh fragrance

Use instructions

The product can only be used through the Quattro Select dilution unit, which guarantees 100% cost control and safety. The Quattro Select unit dispenses high flow (bucket application) and low flow (spray application) dosages.

Bucket method: Apply the solution with a cloth/sponge or mop and wipe. Use a sponge pad to remove stubborn soil. Thoroughly rinse the surface with water and wipe dry. When descaling, sufficiently pre wet grouts with water. Immediately remove solution from acid sensitive surfaces and rinse thoroughly. Thoroughly rinse chrome washroom fittings to prevent from damaging.

Dosage*

Point the yellow Quattro Select unit selector valve to the quadrant which corresponds to the right product and application.

Bucket application: Fill the bucket using the high flow eductor through the filling gun. Recommended concentration for light soiling / soft to medium hard water areas: 2.5%.

Recommended concentration for removal of heavy soil / hard water areas: 5%.

Please refer to the Quattro Select unit installation manual for selecting the right dilution tip.

Proper dosage and temperature save costs and minimize environmental impacts.

**This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*

Technical data

Appearance:	Clear red liquid
pH value (neat):	≤ 2
pH value (in use):	< 2 (5%)
Relative density (g/cm ³ ; 20°C):	≈ 1.43

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet; sds.diversey.com. Store in original closed containers away from extremes of temperature. Only for professional users / specialists.

Product compatibility

Do not mix with chlorinated products. Do not use on acid sensitive surfaces, e.g marble, terrazzo, travertine and other calcareous surfaces. When descaling, sufficiently pre wet grouts with water. Immediately remove solution from acid sensitive surfaces and rinse thoroughly. Thoroughly rinse chrome washroom fittings to prevent from damaging. Test material compatibility in a small, inconspicuous place before use.

Environmental Information

The surfactants used in this product are biodegradable in compliance with the requirement of EU Detergent Regulation, EC 648/2004.
Fully recyclable mono-material pouch with removable label and cap, so easy to recycle where the required infrastructure exists.

Available pack sizes

TASKI Sani Calc is available in 2x2.5L pouch.
