## Alkaline floor cleaner, low foam in QuattroSelect®

### Description

Heavy duty, alkaline floor cleaner specifically developed for use in scrubber driers. Its low foaming formula removes heavy soil, dirt and grease from all water resistant, non protected hard floors (except unsealed wood). Also ideal for top stripping.

### Key properties

- Effective combination of surfactants and alkaline chemicals
- Low foaming, fast acting, good emulsifying power
- Versatile application
- Formulated to prepare floors for top coating
- Fresh fragrance

### Benefits

- Very good cleaning performance on all types of water resistant hard floors
- Effectively cleans and removes dirt, grease and maintenance product buildup
- Ideal for use in scrubber driers, single disc machines and wet mopping systems
- Excellent top stripper, enables better adhesion of additional coats
- Leaves a pleasant, fresh odour

### Use Instructions

The product can only be used through the Quattro Select dilution unit, which guarantees 100% cost control and safety. The Quattro Select unit dispenses high flow (bucket application) and low flow (spray application) dosages.

- Manual cleaning: Apply the solution with a mop. Allow to act (do not allow the solution to dry) and if required scrub. Remove the soiled solution.
- Machine cleaning: Apply the solution with a scrubber drier or single disc machine. Allow to act (do not allow the solution to dry) and scrub, then remove the soiled solution.
- Top stripping: Apply the solution manually or with a machine, leave to act for 5 minutes, scrub and remove soiled solution. Rinse with clear water.

### Dosage\*

Point the yellow Quattro Select unit selector valve to the quadrant which corresponds to the right product and application.

Bucket & Machine application: Fill the bucket using the high flow eductor through the filling gun. Recommended concentration: low soiling (0.2%), high soiling & top stripping (0.4%).

Please refer to the Quattro Select unit installation manual for selecting the right dilution tip.

Proper dosage and temperature save costs and minimize environmental impacts.

*\*This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*

### Technical data

Appearance:	Clear colorless to yellow liquid
Odour:	Product specific
pH value (neat):	~ 11
pH value (in use):	~ 8.5
Relative density (g/cm <sup>3</sup> ; 20°C):	≈ 1.03

*The above data is typical of normal production and should not be taken as a specification.*

### Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet; [sds.diversey.com](https://sds.diversey.com). Store in original closed containers away from extremes of temperature. Only for professional users / specialists.

### Product compatibility

Test material compatibility in a small inconspicuous area before use. Immediately remove any solution splashes from alkali-sensitive surfaces (e.g. wooden baseboards, painted/varnished surfaces) with a wet cloth. Do not use on water-sensitive floors, e.g. unsealed wood.

### Environmental information

The surfactants used in this product are biodegradable in compliance with the requirement of EU Detergent Regulation, EC 648/2004.

### Available pack sizes

TASKI Jontec Forward is available in 2x2.5L pouch.
