SYSTEM

Rubber blade on frame useful to push forward large quantities of water
Ideal for professional use

Advantages

- **Long durability:** the blade is a unique piece with the frame
- **Hygienic:** closed-cell rubber prevents dirt and bacteria from collecting
- **Easy to maintain:** the smooth surfaces and the absence of cavities facilitate cleaning and guarantee a high level of hygiene
- **Autoclavable:** material resistant to temperatures up to 120 ° C for 40 min
- **Multipurpose** supplied with polypropylene scraper to remove any possible crusting

Compatibility

Compatible with handles with thread

06/09/22

Material

Structure: polypropylene - Blade: rubber

Features

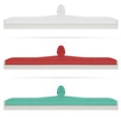

Composed of a single rubber blade (Thermolast K) and a polypropylene structure
