

# EUDERMIC ANTI-MICROBIAL WASHING LOTION AND FOAM

## Skinsan® Scrub N

COMPREHENSIVE EFFICACY FOR PATIENT DECOLONIZATION - WITH SKIN CARING PROPERTIES

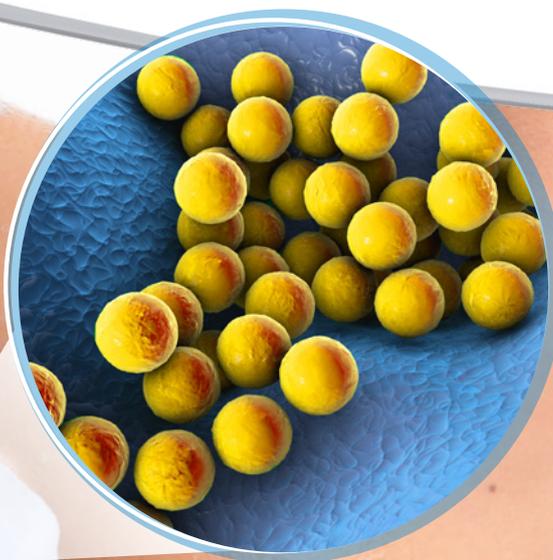

An antimicrobial whole body washing lotion and foam that maximises cleaning and decolonization without compromising skin compatibility. Thus being the reliable alternative for nursing team and patient.

Trusted by Healthcare professionals, Skinsan® Scrub N convinces being:

- ▲ **STRONG** - broad and residual (24 hours) efficacy
- ▲ **GENTLE** - Excellent skin compatibility and skin caring properties, proven in daily hospital routine
- ▲ **USER-OPTIMIZED** - The combination of antimicrobial efficacy, skin soothing properties and ease of use, contributes to an increase in decolonization compliance

**LEAVE ON**  
**NO RINSING**  
**REQUIRED**

**NEW!**

# Skinsan® Scrub N

Antimicrobial washing lotion and foam - perfume and dye free

## BROAD AND RESIDUAL EFFICACY SPECTRUM

Skinsan® Scrub N is effective against bacteria (incl. MRSA and MRGN), yeast and enveloped viruses and shows residual efficacy over 24 hours, thus protecting patients from recolonization. Its efficacy is proven according to latest efficacy standards and in daily clinical routine.

## EXCELLENT SKIN COMPATIBILITY ALLOWING PRODUCT LEAVE-ON

The synergistic combination including skin caring components ensures the skin being decolonized and cleaned as well

as moisturized and hydrated.

Skinsan® Scrub N's outperforming skin compatibility and caring properties are proven in dermatological tests in vitro as well as in daily clinical use. Skinsan® Scrub N can be left on the skin, no rinsing required.

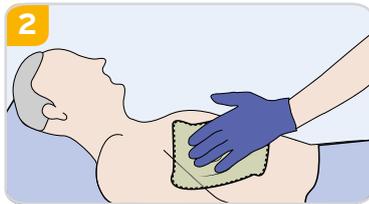

## CONVENIENT FOR BOTH HEALTH-CARE WORKER AND PATIENT

The customized formats available ease the decolonization procedure of both mobile and immobile patients. Skinsan® Scrub N Foam supports application into hard to reach body folds to ensure complete decolonization.

## USE ON BEDRIDDEN PATIENTS

Apply sufficient amount of Skinsan® Scrub N undiluted on a fresh, pre-wetted wash mitt. Skinsan® Scrub N Foam can also be applied undiluted with a dry wash mitt onto patients' skin and hair.

Use in total four fresh wash mitts.  
**1st wash mitt:** for face, head, ears, neck, chest, stomach, arms, hands and fingernails  
**2nd wash mitt:** for back, anal and genital areas  
**3rd wash mitt:** for inguinal area and lower extremities  
**4th wash mitt:** to wash these parts of the head that had not been reached up to this point. In order to do so, the patients were rolled over to the freshly made up side of the bed.

Dispose wash mitts after use.

## MICROBIOLOGICAL AND VIROLOGICAL TEST RESULTS

EFFICACY UNDILUTED	CONTACT TIME
Hygienic handwash acc. VAH (incl. EN 1499) 3 ml on dry hands (washing lotion)/ 4 pump doses on dry hands (foam)	30 sec

## STRONG GENTLE USER-OPTIMIZED

### INDICATIONS

- ▲ MRSA whole body decolonization, including hair
- ▲ General reduction of microbial skin flora
- ▲ Hygienic hand washing

### ACTIVE INGREDIENTS

100g liquid contain:  
0.9g Chlorhexidine digluconate,  
0.9g Didecylidimethylammonium chloride

### INSTRUCTION FOR USE

#### MRSA whole body decolonization and general reduction of microbial skin flora:

Apply sufficient amount of Skinsan® Scrub N/ Scrub N Foam undiluted onto pre-wetted wash cloths or apply directly onto the skin, following existing procedures. Wash the whole body, face and hair. For MRSA whole body decolonization repeat daily as part of a decolonization bundle until decolonization has been proven.

#### Hygienic hand washing:

Rub 3 ml (washing lotion) or 4 pump hubs (foam) into dry hands for 30 seconds, wash off afterwards.
