

DrySan Oxy & DrySan Oxy Wipes

Surface Cleaning and Disinfection in the Food & Beverage Industry

Food manufacturers who implement surface hygiene procedures in processing areas where water is undesirable encounter very specific, critical needs:

- ▶ Minimizing water footprint – a key focus to maintain product quality and food safety
- ▶ Productivity improvement by reducing downtime
- ▶ Easy to use hygiene procedures delivering consistent cleaning results
- ▶ Food Safety requirements for food contact surfaces

The innovative Hi-speed H_2O_2 ™ technology meets those requirements with

- ▶ a broad efficacy spectrum, rapid acting biocides not inducing antimicrobial resistance
- ▶ formulations not containing biocide residues as they decompose into water and oxygen after use
- ▶ a safe work environment due to non-hazardous to health ingredients
- ▶ user-friendly cleaning procedure that doesn't require rinsing after use

DrySan Oxy

Ready-to-use spray disinfectant with cleaning properties

DrySan Oxy is a biocidal product with cleaning properties designed for use in areas where water is undesirable and may affect sensitive equipment.

PRODUCT FEATURES

One product for cleaning and disinfection during and after processing

- ▲ Excellent performance in dry cleaning environments
- ▲ No rinse-requirement after application
- ▲ No biocide residues
- ▲ QAC-, Alcohol-, free formulation
- ▲ Non classified, low toxicity
- ▲ Kosher & Halal compliant
- ▲ Excellent wetting behavior
- ▲ Compatible with soft metals and sensitive polymers

DrySan Oxy Wipes
